Achieve Your Vision With RedShelf's **Newly Enhanced** Content Delivery System

RedShelf's newly enhanced end-to-end Content Delivery System (CDS) supports every task in your course materials process. And our platform just got more seamless, intuitive, and impactful than ever — featuring a new user interface, enhanced partner integrations, workflow automations, and more.

Adoption

New workflow automations streamline course material adoptions, tracking, and communication.

Distribution

Enhanced controls streamline price gathering, while seamless POS and LMS integrations support in-store sales and automatic digital course launches.

Learning

Dynamic digital course materials (~1M titles from 400+ publishers) enhance engagement and learning.

Billing & Reporting

Consolidated billing reports and quick invoice turn-around simplify billing.

Analytics

Data and dashboards deliver powerful insights to stakeholders.

RedShelf's Content Delivery System empowers you with the tools and technology you need to make your digital vision a reality.

See how Maryville University achieves 100% digital access through RedShelf's CDS at about.redshelf.com/campus.
